 - **Version Control:** Git, GitHub
 - **Project Management:** Goodday, Jira, Odoo PMS
 - **API Development:** REST API Design & Integration
 - **Server Management:** Cloud & On-Premise Infrastructure
-

PROFESSIONAL EXPERIENCE

Ideenkreise Tech Pvt Ltd

Kochi, India | Jun 2020 – Present

Senior Odoo Developer & Team Lead (Jun 2022 – Present)

- Lead technical teams in full-cycle project delivery, from requirements gathering and documentation to deployment and maintenance
- Coordinate with cross-functional team members to ensure timely project completion and quality deliverables
- Conduct client consultations to gather requirements, provide technical guidance, and ensure alignment with business objectives
- Manage cloud infrastructure on AWS and DigitalOcean, including server provisioning, configuration, and optimization

- Administer on-premise servers for PHP and Odoo applications, ensuring high availability and security
- Mentor junior developers and conduct code reviews to maintain development standards

Odoo Developer (*Jun 2021 – May 2022*)

- Specialized in Odoo ERP customization and module development using Python
- Implemented complex business logic and workflows for various industry verticals
- Integrated third-party applications and developed REST APIs for seamless data exchange
- Performed data migration from legacy systems to Odoo platform

PHP Developer (*Jun 2020 – May 2021*)

- Developed custom web applications using PHP and CodeIgniter framework
- Gathered and documented client requirements for various projects
- Implemented responsive front-end interfaces using HTML, CSS, and JavaScript
- Managed database design and optimization for PostgreSQL and MySQL

Key Projects:

- **Full ERP Implementations**
 - Led end-to-end customization of core Odoo modules: Purchase, Accounting, Sales, Inventory, and Manufacturing
 - Orchestrated data migration from legacy systems with zero downtime
 - Developed REST APIs for integration with external applications
 - Designed and delivered comprehensive training programs for end-users and staff
 - Managed project timelines, resource allocation, and stakeholder communications
- **Purchase Management System with Bidding Portal**
 - Customized Odoo Purchase module to streamline procurement workflows
 - Designed intuitive Bidding Portal integrated with Odoo system
 - Implemented automated approval processes and vendor onboarding workflows
 - Coordinated with procurement teams to gather requirements and refine features
- **E-Invoicing Integration**
 - Integrated Odoo with external invoicing platforms and tax authorities for automated data exchange
 - Implemented invoice splitting functionality for complex billing scenarios
 - Conducted training sessions for finance teams to ensure smooth adoption
- **CRM System for Property Development**
 - Developed custom CRM to track leads from Facebook and manual entries

- Implemented payment reminder system and property booking workflows
- Designed follow-up automation to improve customer engagement and sales conversion

Wahylab Solutions

Kochi, India | Oct 2018 – May 2020

Senior PHP Developer (Mar 2020 – May 2020)

- Led development of complex web applications and management systems
- Gathered client requirements, created technical documentation, and managed project deliverables
- Coordinated with team members to ensure on-time project completion
- Managed server setup and deployment on cloud platforms and on-premise infrastructure
- Provided technical mentorship to junior developers

PHP Developer (Feb 2019 – Feb 2020)

- Developed full-stack web applications using PHP, CodeIgniter, HTML, CSS, and JavaScript
- Implemented inventory management and CRM systems for various business verticals
- Integrated payment gateways and third-party APIs
- Documented requirements and maintained project documentation

PHP Developer Trainee (Oct 2018 – Jan 2019)

- Completed intensive training in PHP, MySQL, and web development fundamentals
- Contributed to development of small-scale web applications and modules
- Learned best practices in coding standards and version control

Key Projects:

- **School Management System**
 - Designed comprehensive platform for student information, staff data, attendance, and examination management
 - Integrated academic record tracking and communication tools for administrative efficiency
- **Inventory Management Systems (Textile & Tyre Shops)**
 - Built custom inventory solutions with stock tracking, billing, and sales reporting
 - Implemented CRM features for customer relationship management and service tracking

- **Hotel Website with Booking System**
 - Developed real-time booking engine with payment gateway integration
 - Focused on UX/UI design for seamless user experience
- **WordPress eCommerce Site**
 - Built fully functional eCommerce platform with CCAvenue payment gateway integration
 - Implemented product catalog, inventory management, and order tracking features
